

# ANZIP AUSTRALIA NEW ZEALAND INFRASTRUCTURE PIPELINE

The Australia & New Zealand Infrastructure Pipeline (ANZIP) provides a forward view of public infrastructure activity across Australia and New Zealand, providing certainty of the forward work programme to investors, constructors, governments and other agencies. ANZIP informs industry of where and what infrastructure opportunities are available, and when they come to market by tracking greenfield and brownfield transactions from when they are proposed, until they reach contractual and financial close.

## STATUS DEFINITIONS

### Prospective pipeline

Greenfield (construction) or brownfield (government asset divestment) projects needed or likely to occur within the next five years, but is not formally proposed by a state, territory or major local government.

### Credibly Proposed

The project or divestment is supported by a state, territory or major local government, is subject to studies or other processes (such as pre-feasibility or scoping studies or business case development), and is likely to proceed to formal announcement

### Announced

The project has a firm commitment and timeline from a state, territory or major local government, but has not yet entered the market.

### Under procurement

The project or transaction is under procurement (such as a call for Expressions of Interest, requests for tender, or another offer to the market).

### Preferred bidder announced

A preferred bidder has been selected and is in exclusive negotiations.

### Recently closed

Projects that have progressed to contractual close remain on ANZIP for 12 months.

## NEW WOMEN AND CHILDRENS HOSPITAL

**PROJECT  
PIPELINE  
STATUS**

**STATUS:** Prospective pipeline

**SECTOR:** Social infrastructure

**JURISDICTION:** SA

**PROCUREMENT APPROACH:** Unknown

**TYPE:** Greenfield

The current Women's and Children's Hospital is located in North Adelaide, but has limited facilities to provide best practice healthcare to patients. As such, the South Australian Government allocated \$5.25 million over four years to the planning and design of a new Women's and Children's Hospital in the 2018-19 Budget. The Government also established a high-level taskforce, made up of key stakeholders across the sector, to drive the planning process.

The 2018-19 Budget does not allocate funding to the construction of the new hospital, but rather states that a funding provision is being held centrally. The funding provision assumes a traditional build, however the Government has not ruled out a public private partnership. The final procurement method will be determined during the planning process.

The 2019-20 SA State Budget provides a \$550 million provision to the project for planning and early works.

The new hospital will be co-located with the new Royal Adelaide Hospital, with expected completion in 2024.

**Last reviewed:** 21/06/2019
