

ANZIP AUSTRALIA NEW ZEALAND INFRASTRUCTURE PIPELINE

The Australia & New Zealand Infrastructure Pipeline (ANZIP) provides a forward view of public infrastructure activity across Australia and New Zealand, providing certainty of the forward work programme to investors, constructors, governments and other agencies. ANZIP informs industry of where and what infrastructure opportunities are available, and when they come to market by tracking greenfield and brownfield transactions from when they are proposed, until they reach contractual and financial close.

STATUS DEFINITIONS

Prospective pipeline

Greenfield (construction) or brownfield (government asset divestment) projects needed or likely to occur within the next five years, but is not formally proposed by a state, territory or major local government.

Credibly Proposed

The project or divestment is supported by a state, territory or major local government, is subject to studies or other processes (such as pre-feasibility or scoping studies or business case development), and is likely to proceed to formal announcement

Announced

The project has a firm commitment and timeline from a state, territory or major local government, but has not yet entered the market.

Under procurement

The project or transaction is under procurement (such as a call for Expressions of Interest, requests for tender, or another offer to the market).

Preferred bidder announced

A preferred bidder has been selected and is in exclusive negotiations.

Recently closed

Projects that have progressed to contractual close remain on ANZIP for 12 months.

SA WATER SOLAR INVESTMENT

STATUS: Recently closed

VALUE: \$304M AUD

SECTOR: Energy

JURISDICTION: SA

PROCUREMENT APPROACH: Traditional procurement

TYPE: Greenfield

SA Water's solar investment project includes the installation of half a million solar panels on 80 different sites.

The \$304 million contract has been awarded to South Australian company Enerven. Enerven will install approximately 154 MW of solar generation capacity over the next two years.

The project is part of SA Water's goal to achieve zero net electricity costs from 2020.

Work on the first group of sites - including Bolivar Wastewater Treatment Plant and Morgan Water Treatment Plant - is expected to commence in early 2019.
